Pad shown in color for display only.
Mask sold separately.

**COMPOSED OF USP GRADE MINERAL OIL WHICH
MOISTURIZES BY GRADUALLY DIFFUSING ONTO THE SKIN.**

Compliance • Comfort

Recommended by clinicians and patients

"The Sleep Comfort Care Pad will prevent skin breakdown in non-invasive mask ventilated patients. It has made a significant impact in CPAP compliance for my Apnea patients and I have successfully incorporated the pad into my practice."

Jeffrey Salizzoni, MD,
Diplomate American Board of Pulmonary Disease and Sleep Medicine,
Aspen Medical Associates

"I've worn at least a dozen different CPAP masks and every one left a red mark on my nose and made the mask very uncomfortable to wear. The nose mark went away after using the Sleep Comfort Care Pad and now I sleep more comfortably. I recommend it to anyone that wears a CPAP mask."

Joseph T., NJ
